Questionnaire

Thank you for visiting today.

◆ Principal' s Message Takayuki Suda ◆

Thank you very much for visiting the 2025 Isoko Technical High School Cultural Festival, Isoko Festival.

This year`s theme is " Nothing beats Isoko Fest!!" Since the school's opening, our school has been a place where students learn both knowledge and skills through general experience. In this year`s cultural festival, while cherishing the traditions that have been handed down through the years, our students have worked hard to incorporate new ideas and creativity suited to a new era, seeking to express the future of craftsmanship.

We hope all visitors will enjoy viewing the exhibits and presentations, and feel the enthusiasm of our students and the unique appeal of a technical high school. We sincerely wish that today will be an enjoyable and fulfilling day for everyone.

◆ Student Council President Ryu Kawamoto◆

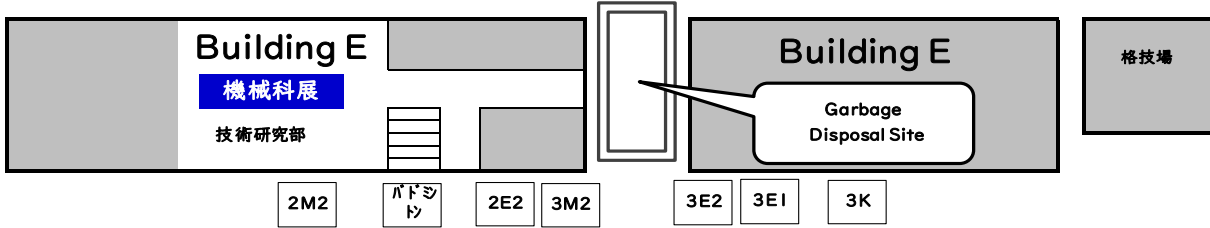

It's that time of year again - the Isoko Festival is finally here!

First-year students come up with fun and creative projects every year. Last year's Maid Casino was super memorable - it really captured the unique spirit of Isoko. I was on a winning streak for a while ,but I lost everything on the final bet,,, it still kind of hurts to think about! For the second-years, it's your first time being allowed to run food stalls, and for the third-years, it's your last Isoko festival. It's the perfect chance for everyone to take on something new and show off what Isoko students are made of! Since it's my last festival too, so I'm going all in and making sure to enjoy every moment!

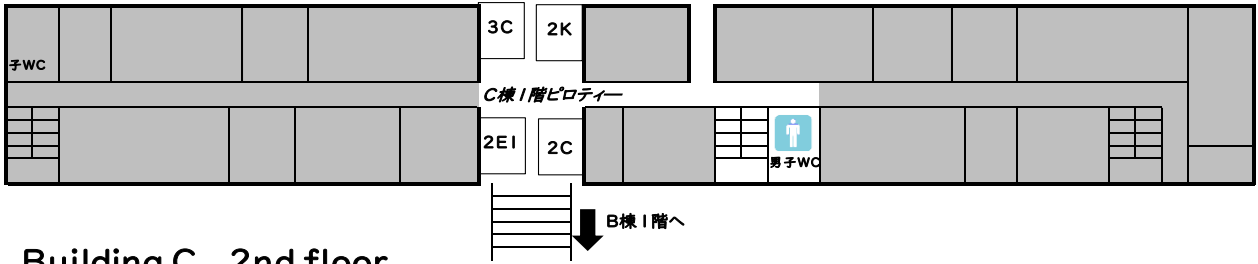

◆ Iso Tech Festival Committee Tomoharu Mizumura◆

The long summer has come to an end, and once again, it is time for the Isoko Festival. This year`s theme, "Nothing beats Isoko Fest!!" represents our wish to honor the history and traditions built by our predecessors while continuing to move forward. For us third-year students, there are only a few school events left. Through this festival, we hope to bring smiles to our guests, families, and the local community, and also create lasting memories for ourselves. Let`s work together to make this the best Isoko Festival ever.
