○ Lifestyle

❄️ Australia has the opposite seasons from Japan, so it was winter when I visited. However, it was not very cold, although the mornings and evenings were chilly.

🌟 In the suburbs, I saw many one-story houses and a wide open sky. The roads were spacious, and starry skies were beautiful. I also saw many wild birds living close to people.

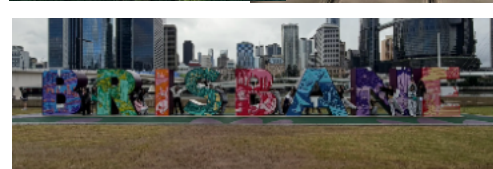

🌊 During my stay, I went on a picnic by the sea. My host mother quickly became friends with another mother she had just met. Watching them naturally start a conversation made me realize one of the differences between Australian and Japanese culture.

○ Experience

💖 One of the most memorable parts of my homestay was how much my host family valued spending time together. They always cared about me, but they also continued to enjoy their usual family time. I thought that was wonderful.

🏠 The students at the school were all very outgoing. Boys greeted me with "Konnichiwa" when we passed each other, and I was happy to know that so many people were interested in Japan. Size of the classes was small, and the school seemed more relaxed about punctuality than schools in Japan. There were also classes such as makeup and cooking, so students could learn about things they were interested in. I thought they were great.

○ What did you learn from this study tour?

🍀 I learned that it is important to express my thoughts without hesitation, even though my English is not perfect. I think it is not enough to just listen. I tried to express what I wanted to say, little by little. Even when my English was not fluent, no one got annoyed. Instead, everyone listened patiently and was happy that I was trying to convey. I realized how enjoyable it is to have a conversation.

👉 At the same time, I also realized that I need to improve my ability to express my thoughts in English more quickly. I want to study English so that I can communicate my ideas more clearly. I hope to visit Australia again, and before I do, I want to improve my English even more.
