

International Lunch Time!

Tsurumine holds International Lunch Time twice a month.

月2回の交流会。

Students who are from abroad, students who have lived abroad, students who have visited abroad and students who have never been abroad come together, eat lunch, and talk.

This is to learn about foreign cultures, speak foreign languages, or just have a good time!

留学生や帰国生徒とおしゃべり :D

It was fun. I like this International Lunch Time! I noticed differences between the countries we are from. I want to join this again!

I talked to people with similar experiences and backgrounds. I learned about Japanese culture, and it was fun.

I sat next to people who are similar to me. It felt like I was back in America. It was really fun.

I think it's a good thing for us. We can talk about things in English or Japanese, and we learned about festivals in other countries.

I feel like my intelligence has improved! I am happy to listen to cool English.
