

## *My memories of 3 years*

### **1st grade.**

I was impressed by the sports festival. The first sports festival was very fun and I was looking forward to spending in school more

### **2st grade.**

I was impressed by the school trip. It was first time for me to visit Okinawa. The sea was very beautiful and I ate a lot of delicious food.

### **3st grade.**

I was so impressed by the school festival. The other classes were also fun, and the maid cafe in my class was also fun. In particular, the live performance of the midnight festival was impressive.

In the past three years, I have been able to learn both academically and humanly, and I have been able to make many friends.
